#### First Year Experience

First Year Experience

10 Gage Complex

507-389-5498

MSU recognizes the academic and personal challenges faced by first-year students. The First Year Experience (FYE) program is designed to enhance and support new students success.

Orientation. Extensive summer programs are designed to familiarize new students with the college environment, provide advising, and assist with registration. Orientation programs are also available for students entering

---

Spring term.

Special orientation programs are provided for international students, and for American students of color. Many departments welcome students each year with informal orientation programs.

Invitations and information about the programs are sent to students. If you have any questions about orientation or entering the University, contact the Office of First Year Experience.

**Academic Success.** FYE provides academic advisement for all undecided/pre-major students at MSU, personal and academic transitional support for the first year students; and assistance with major selection.

FYE helps students address academic difficulties early through the midterm reporting system. Through this system FYE contacts professors of all students who have earned fewer than 24 semester credits, asking for a midterm progress review. A follow up phone call is made to students in academic difficulty. This phone call is made by an Academic Advisor and is designed to offer academic support, resources and the option to meet personally with an academic advisor. All phone calls are confidential.

**The First Year Seminar.** This one-credit general education course to introduces first-year students to the academic community. The course focuses on enhancing communication skills, critical thinking, and examining the components of a successful first year transition, both personally and academically. Classes are small, giving students and professors an opportunity for lots of interaction. This course meets once a week for 50 minutes.

**Probation Advising Plan for  
First Year Experience Pre-Major Students**

FYE takes the following steps to notify and support students facing academic probation:

1. An initial letter will be sent from the Office of Academic Affairs to students who are on probation.
2. Within the first weeks of the semester, the First Year Experience Program will send letters to pre-major students who are on a academic probation.
3. Pre-Major students on probation will be instructed to attend a group intake session offered by First Year Experience before the end of the first month of the academic term, (dates will be sent to students)
4. Pre-Major students will need to complete a self-assessment form during the group intake process.
5. After the intake process, students must bring their completed assessment and a copy of their current, unofficial transcript to the FYE office to set up an individual appointment to meet with their academic advisor.
6. Upon satisfactory completion of the contract the academic advisory makes the recommendation to the Assistant Director for Advising Support Services to have the students hold lifted.
7. Pre-major probationary students must demonstrate satisfactory completion of their probationary contract. Failure to do so will delay priority registration, impact support for other academic actions, I.E. suspension and/or financial aid reinstatements.
8. After registration has occurred, the hold is reinstated.

**Learning Communities.** Learning Communities are groups of 15-25 students who take fall semester courses together and live on the same residence hall floor. Participants develop lasting friendships with students who share common interests and have the opportunity to interact with select faculty.

Each learning community has a Learning Community Coordinator (LCC), an upper-class student dedicated to the academic success of every member as they transition to college life at MSU. The Learning Community Coordinator assists each student in setting and achieving academic goals, develops study groups for the community, and plans community events.

**Residence Hall Living.** Living on campus gives highly motivated students an excellent opportunity to become actively involved in campus life.

**Maverick Hall.** Maverick Hall is a planned living/learning environment designed

to enhance first-year success. Community Advisors provide social and educational opportunities for residents to encourage involvement, and to provide support as students find their place in the MSU community.
