

ALCOHOL AND DRUG STUDIES

Alcohol and Drug Studies

College of Allied Health & Nursing

Department of Health Science

213 Highland Center N • 507-389-1527 or 389-5937

Coordinator: Roy Thomas J. Kammer

The Department of Health Science administers an interdisciplinary alcohol and drug studies major and minor.

To graduate with a major in Alcohol and Drug Studies, you need to complete:

- General Education Requirements (44 credits)
- The Alcohol and Drug Studies Required General Education Courses (13 credits)
- The Alcohol and Drug Studies Required Core Courses and Internship (36)
- A minor (Recommended minors include Community Health, Corrections, Sociology, Social Welfare, and Psychology)

POLICIES/INFORMATION

Entrance Requirements. To declare the Major, the student must:

- Meet with the Coordinator of Alcohol and Drug Studies to complete an Alcohol and Drug Studies Program Permission Form.
- Students who have declared the major must meet with their advisor each semester to receive permission to register for 300 or 400 level classes until they are permanently admitted to the Major.

To be “permanently” admitted to the Major, the student must:

- Complete a minimum of 32 semester credit hours
- Possess a minimum cumulative GPA of 2.5
- Complete the following courses:
 - HLTH 225: Intro to Alcohol and Drug Studies
 - Any two of the Alcohol and Drug Studies Required General Education Courses
- Complete the Alcohol and Drug Studies Student Application Packet. The packet is available in the Alcohol and Drug Studies Program Student Handbook.
- Students must set up a meeting with the Coordinator of Alcohol and Drug Studies to submit the application packet.

Upon completion of the above requirements, students will be required to participate in a formal screening interview. The screening interview is the final step to becoming permanently admitted into the Alcohol and Drug Studies Program. The screening process entails areas such as interest in the program, grades, professional areas of interest, demonstration of ethical and professional behavior, etc. Students must receive approval by the screening committee to be admitted to the program.

To be admitted to the Track One Minor, you must:

- Meet with the Coordinator of Alcohol and Drug Studies to complete an Alcohol and Drug Studies Program Permission Form.
- Track One Minors must complete the application and screening interview to be eligible for internship. Students must receive approval by the screening committee prior to enrolling in the internship.

To be admitted to the Track Two Minor, you must:

- Meet with the Coordinator of Alcohol and Drug Studies to complete an Alcohol and Drug Studies Program Permission Form.

GPA Policy. For required courses, undergraduate students are required to maintain a 2.5 GPA. Graduate students are required to have a 3.0 GPA. Alcohol and Drug Studies, Community Health and School Health will be required to achieve a “C” or better in all programmatic required courses.

P/N Grading Policy. All courses must be taken for grades with the exception of the internship, which can be taken on a P/N basis.

Prerequisites for Courses. Students will need to satisfy any prerequisites in conjunction with the suggested sequence of required courses.

Prerequisites for Internship. Students must be admitted to the Alcohol and Drug Studies major or minor and all coursework must be satisfactorily completed before registering for the internship experience. The internship requires the completion of 880 clock hours at an approved internship site.

Licensure and Certification. As the addictions field evolved, it has become increasingly important to pursue professional credentialing within the field. The Alcohol and Drug Studies Major and the Track One Minor provide students with the academic coursework necessary to pursue a number of credentialing options. Students are responsible for verifying their eligibility for credentialing with their respective credentialing boards and may obtain contact information for the appropriate credentialing boards from the Coordinator of Alcohol and Drug Studies

Chemical Use Problems. Consistent with standards of practice in the field, students participating in the internship process must be free of chemical use problems for at least one year immediately preceding their internship. Examples of chemical use problems include, but are not limited to:

- receiving treatment for chemical use within this time period
- chemical use that has a negative impact on the student’s academic performance;
- chemical use that affects the student’s professional credibility of treatment services with clients, referral sources, or other members of the community; and
- symptoms of intoxication or withdrawal during academic roles.

Any chemical problems including the misuse or abuse of mood altering chemicals may be grounds for dismissal from the Alcohol and Drug Studies Program.

Continuance and Completion of the Program. Students in the Alcohol and Drug Studies Program must maintain the academic standards of the program as well as all academic and university policies. Students must demonstrate behaviors consistent with the ethical codes and standards of the profession. Students not adhering to these standards or policies may be removed from the Alcohol and Drug Studies Program. Students being removed from the program will be notified in writing by the Coordinator of Alcohol and Drug Studies.

Appeals to Admission/Application and Screening Process/Continuance Decisions. If a student believes a decision regarding his/her admission to the program, Application and Screening Process results, or continuance in the program was unfair, arbitrary, or capricious, he/she may appeal the decision by completing the following steps.

Within one week of receiving the written results of a decision, the student must submit a written letter to the Coordinator of Alcohol and Drug Studies stating the nature of his or her concerns. The letter should contain the nature of the concern, a proposed remedy, and information to support the proposal. Within one week of receiving the appeal letter, the Coordinator of Alcohol and Drug Studies will provide a written response to the student.

If the student is not satisfied with the response from the Coordinator of Alcohol and Drug Studies, he/she may write an appeal letter to the Department of Health Science Chairperson within one week of receiving notification from the Coordinator of Alcohol and Drug Studies. The appeal should contain the nature of the concern, a proposed remedy, information to support the proposal, and a copy of the initial appeal provided to the Coordinator of Alcohol and Drug Studies. The student shall provide the Coordinator of Alcohol and Drug Studies with a copy of the appeal sent to the Department of Health Science Chairperson. The Chairperson will notify the student of his/her response in writing within one week of receiving the appeal. The Chairperson will provide a copy of the correspondence to the Coordinator of Alcohol and Drug Studies. This is the final step in the appeals process.

ALCOHOL AND DRUG STUDIES

If the student fails to respond within the time limits provided, the appeal shall be deemed to have been withdrawn.

ALCOHOL AND DRUG STUDIES MAJOR BS

Required General Education

CMST	100	Fundamentals of Communication (3)
CMST	102	Public Speaking (3)
