Mission Statement. The mission of the Honors Program at Minnesota State, Mankato is to encourage future leaders, researchers, and global citizens by providing high ability and motivated students with exceptional learning opportunities, mentoring relationships, and a community of scholars to pursue a variety of academic interests.

Program Overview. The Honors Program is dedicated to the development of three main competencies: leadership, research, and global citizenship. Early in the program, students participate in a learning community in which they enroll in honors sections of general education courses that focus on competency development. As students move into courses within their major, they further develop their honors competencies through advanced honors seminars and individualized plans of study. Throughout their time at the University, students will participate in a number of co-curricular activities, which complement their plan of study. At the culmination of all coursework, seniors are required to demonstrate acquisition of the global leadership, research, and global citizenship competencies through a successful presentation and defense of an honors portfolio in HONR 475: Honors Portfolio.

Admission to the Honors Program. The Honors Director, in consultation with the Honors Council, grants admission to the Honors Program. Honors Program admission criteria are based on a variety of areas. No predetermined test score or class rank guarantees or precludes admission. The selection committee considers the applicant's demonstrated academic excellence as well as character traits such as perseverance, inquisitiveness, and hard work. Contact the Honors Program Director for application forms and procedures.
