Sociology is the scientific study of society and culture examining the patterns of human social behavior. The sociology program at Minnesota State University, Mankato is dedicated to the pursuit, transmission and application of sociological knowledge in order to understand and transform the social world. The pursuit of sociological knowledge involves scholarly inquiry by faculty and students. The transmission of sociological knowledge entails teaching and learning within and beyond the academy. The application of sociological knowledge translates the unique insights of sociological perspectives into our professional activities and daily lives. The sociology program at Minnesota State, Mankato leads to careers in academic and applied settings including human services, government, business, nonprofit organizations and social action organizations.

The Sociology undergraduate major includes three options: **Option I:** General Sociology provides a liberal arts curriculum along with research skill development for students interested in a comprehensive education or preparation for graduate education. **Option II:** Applied Sociology prepares students for careers in a variety of applied settings. This applied program includes an internship. **Option III:** The Globalization Studies Emphasis provides students a global perspective to understand global social processes and the role of the United States in an increasingly interconnected world.

Students planning to major in sociology should take SOC 200: Foundations of Sociology as soon as possible after being accepted into the major. Our program mission statement, program goals, career information and more are available on our website (<http://sbs.mnsu.edu/soccorr>).
